

Report of the meeting held on Tuesday 28th April 2015

Present: Board members: Mark Arthur, Caroline Richmond, Chanell Pritchard (secretary) Kit Sandford, David Webster, Sary Workman, Gary Narborough and 35 members. Apologies were received from Jose Drabwell (chairman), Andrew Symes and several members. The meeting was chaired by Kit Sandford.

Membership

have their data used, confidentially, in a range of research projects. Those who have already signed consent forms will be asked to sign again. As she is trying not to overload us with too many forms at once, she has asked Chanell to send the forms out to us a week before our clinic appointments. This will give patients time to read and consider

Dr David Webster reported that gene therapy is currently on trial at Great Ormond Street hospital and the Royal Free for Wiscott-
