Our community has 41,500 students from 150 countries and over 12,500 staff members. We are committed to academic excellence, breaking barriers and making a positive impact on the world.

We are currently ranked among the top 10 universities in the world and are proud to have produced leading researchers in a wide range of academic areas and to have benefited each of our students.

We have a global presence and have established a strong teaching and research community in many countries, creating a rich and diverse academic environment. We encourage our students to think, to learn, and to contribute to the world's knowledge and progress.

For almost 200 years, we have provided high-quality education for students from all backgrounds and have changed the lives of many people around the world.

We are proud to be a leading university in England and to have produced many of the world's leading scientists and researchers. We are committed to academic excellence and to making a positive impact on the world.
